Equivalency Period

Effective January 1, 2012 through June 30, 2014 the following equivalencies are allowed:

- (1) Fire Prevention 1A (2009) and Fire Prevention 1B (2009) will be equivalent to the new Fire Prevention 1 (2012) course.
- (2) Fire Command 1A (1995) and Fire Command 1C (2004) will be equivalent to the new Command 1A (2012) and Command 1C (2012).

Candidates wishing to pursue Fire Officer Certification under the existing requirements and/or wishing to utilize the afore listed equivalencies must complete all requirements and submit their fees and applications to State Fire Training prior to June 30, 2014.

Justification: The Statewide Training and Education Advisory Committee has approved the listed changes in Command and Fire Prevention curriculum and the associated changes in certification track educational requirements. These changes are directed at meeting the specific Job Performance Requirements for Fire Officer established in NFPA Standard 1021.

The current SFT Procedure Manual dated May 2008 only indicates the old Fire Officer curriculum and certification educational requirements. This creates confusion for candidates attempting to obtain Fire Officer Certification while meeting current requirements.
